-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on May 18, 2005 has been entered.

Response to Arguments

2. Applicant's arguments with respect to claims 11-13 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 11-13 are rejected under 35 U.S.C. 102(e) as being anticipated by Domon (US 20010055322 A1).

Regarding claim 11, Domon discloses a system (see figure 2) comprising:

a processor (29);

a storage (25) coupled to said processor;

a video controller (33) coupled to said processor; and

Art Unit: 2611

a packetization device (31) coupled to said video controller to independently packetize at least two heterogeneous moving picture video streams (25(1)-25(4)) in frame rates (i.e., 6.048 Mbps and 12.096 Mbps) for transmission thereof to a display device (49) without converting formats and frame rates of said at least two heterogeneous moving picture video streams to a common output format and rate (the formats and frame rates of the packetized streams, i.e., H(1) and H(2), are not changed to a common output format and rate - see 0045 and figure 2).

Regarding claim 12, Domon further discloses that a modulation device (35) modulates and transports independently packetized streams (multiplexing the transport stream signals including the first and second packet sequences - see 0046).

Regarding claim, Domon further discloses that each of said video streams has a different frame rate (i.e., 6Mbps and 12 Mbps) and is packetized to be de-packetized (demultiplexing the multiplexed signal into reproductions of the first and the second transport packet sequences via 43) at the different frame rate in the display device (see 0048, 0043 and figure 2).

Conclusion

5. The following are suggested formats for either a Certificate of Mailing or Certificate of Transmission under 37 CFR 1.8(a). The certification may be included with all correspondence concerning this application or proceeding to establish a date of mailing or transmission under 37 CFR 1.8(a). Proper use of this procedure will result in such communication being considered as timely if the established date is within the required period for reply. The Certificate should be signed by the individual actually depositing or transmitting the correspondence or by an individual who, upon information and belief, expects the correspondence to be mailed or transmitted in the normal course of business by another no later than the date indicated.
